

<cover_letter>

Hello:

I can contribute to this job because of my over ten years of experience in PHP programming.

During this time, I have worked for companies, created my own projects, and worked freelance.

I worked many years fully remote as CTO and managed teams.

I have significant experience as a full-stack developer using these tools:

- PHP, Go, Python, ASP, Javascript
- MySQL, MariaDB, MongoDB, PostgreSQL, SQLServer
- Zend, Codeigniter, Symfony, Laravel
- PHPUnit (testing)
- Methodologies & good practices: SOLID, DDD, CQRS, TDD, HEXAGONAL ARCHITECTURE, PSR
- Javascript, jQuery, VUE, Typescript, React
- PHPStorm, Visual Studio Code
- Docker, Kubernetes
- Server management, AWS, Azure
- Agile methodologies Scrum & Kanban
- Version control: GIT
- Development team leading

You will find comprehensive information on my resume and my
